PROFILE

Full-stack engineer with 3+ years shipping web and cross-platform products: creator payments, e-commerce, service marketplaces and business platforms. I turn business requirements into working user journeys, integrate the services that make them real (Paystack, Stripe, OAuth2, Solana wallets), and care about debugging, maintainability and clear communication.

EXPERIENCE

Project Lead Developer · TipStack — 2026 — Present · Remote

Lead development of a creator rewards and payment platform, including onboarding, creator pages, wallet connections and payment integrations. Selected for a six-week startup accelerator.

Developer · Kendibo — Nov 2026 — Present · Nigeria

Built a WhatsApp agent and worked on customer and provider journeys, service discovery, booking and launch readiness for a home-services marketplace.

Media Specialist Volunteer · GDG Eket — Oct 2026 — Present · Eket · Hybrid

Event photography, interviews, highlight reels and promotional content for DevFest Eket and community events.

Full-Stack Engineer · Komewells Global Services Limited — Jul 2025 — Present · Remote

Platform redesign, marketplace development and travel-booking integration, with attention to backend architecture and user flows.

Representative · WordCamp Eket — Apr 2025 — Present · Eket · Hybrid

Community event planning and photography; part of the organizing team for the inaugural WordCamp Eket in 2026.

Application Developer · Freelance / Contract — 2024 — Present · Remote

Build mobile and web products with payments, geolocation, offline-first features and AI recommendations; applications have served 10K+ users across platforms.

Media Specialist · AfricInnovate — Aug 2025 — Jul 2026 · Eket

Videography, content management and media support for the local technology community.

Mobile App Developer · Digi Exclusive Innovation — 2024 · Nigeria

Led an e-commerce vendor app to 5K+ users with OAuth2, Stripe/Paystack, chat and push notifications. Payment integration associated with a 25% revenue lift.

IT Specialist · Eagle Bliss Empire — Jul 2022 — Present · Eket · Hybrid

IT support, media relations, computer training programmes and client web projects.

Information Technology Intern · Eagle Bliss Empire — 2022 — 2024 · Eket

Translated client requirements into IT solutions and supported computer training and web development.

SELECTED PROJECTS

TipStack (Creator monetization platform, Lead Developer): A creator rewards platform where fans connect a wallet and support creators in seconds. A working creator onboarding and wallet-connect payment flow in active iteration, with architecture ready for rewards and on-chain features. React, Vite, TypeScript, Solana, Vercel

Kendibo (Home-services marketplace, Product Developer): A pre-launch home-services marketplace intended to help customers find professionals and providers access jobs. MVP and pre-launch product with a WhatsApp agent; the team reports winning a hackathon. An early-access site is available for customers and service partners. React, Node.js, Firebase

DigiMart (E-commerce vendor app, Mobile App Developer · Digi Exclusive): A cross-platform shopping and vendor app with secure payments, chat and push notifications. Grew to 5K+ users; the payment integration was associated with a 25% revenue increase. Flutter, Dart, Firebase, Stripe, Paystack

Super MCP Lite (Local-first multi-agent IDE, Creator): Orchestrates local (Ollama) and cloud AI agents on your codebase, with an Approve & Run gate on every risky command. One-command install with a global `super` CLI and desktop shortcut; MIT-licensed on GitHub. Python, Ollama, FFmpeg

NextGen Talent TV (E-voting, tickets & commerce platform, Full-Stack Developer): An e-voting, event ticketing and commerce platform for talent shows: organisers run contests and sell tickets, fans vote and watch live. Live at nextgentalenttv.com with organiser and fan accounts, events, voting and ticketing. React, Node.js

Zeroyale Ventures (Digital licensing & documentation, Full-Stack Developer): Renew car papers, apply for a driver's licence or register a business online, then track every request from a personal dashboard. A live service site with customer accounts, request tracking and agent onboarding. React, TypeScript, Vercel

SKILLS

Frontend	React, Next.js, TypeScript, Tailwind CSS, Vite
Backend & APIs	Node.js, Express, Python, FastAPI, Flask, REST
Mobile	Flutter, Dart, Push notifications, Offline-first
Payments & Web3	Paystack, Stripe, Solana, Phantom, Dynamic SDK, OAuth2
Data & Cloud	PostgreSQL, MySQL, Firebase, Vercel, Git
AI & Automation	LLM agents, Ollama, Genkit, Puppeteer, Prompt engineering

RECOGNITION

1st place: DevFest Eket Hackathon (2026)

1st place: Build with AI Hackathon (2026)

2nd place: Next Gen Summit Hackathon, Uyo (2026)
