PROFILE

Full-stack engineer with 3+ years shipping web and cross-platform products: creator payments, e-commerce, service marketplaces and business platforms. I turn business requirements into working user journeys, integrate the services that make them real (Paystack, Stripe, OAuth2, Solana wallets), and care about debugging, maintainability and clear communication.

EXPERIENCE

Lead Developer · TipStack — 2026 — Present · Remote

Lead the React/Vite product: creator pages, onboarding and payment UX. Own wallet-connection and Solana payment integration (Dynamic SDK, Phantom).

Product Developer · Kendibo — 2026 — Present · Nigeria

Built the hackathon-winning MVP of a home-services marketplace: discovery, booking and provider operations.

Full-Stack / Mobile Developer · Freelance · Komewells Global Services — 2024 — Present · Remote

Platform redesign, marketplace/e-commerce build and travel-booking integration for Komewells. Payment, geolocation, offline-first and AI features for client apps.

Mobile App Developer · Digi Exclusive Innovation — 2024 · Nigeria

Led an e-commerce vendor app to 5K+ users with OAuth2, Stripe/Paystack, chat and push notifications. Payment integration associated with a 25% revenue lift.

IT Specialist · Eagle Bliss Empire — 2022 — 2024 · Eket

IT support, computer training programmes and client web projects (eaglebliss.co).

SELECTED PROJECTS

TipStack (Creator monetization platform, Lead Developer): A creator rewards platform where fans connect a wallet and support creators in seconds. A working creator onboarding and wallet-connect payment flow in active iteration, with architecture ready for rewards and on-chain features. React, Vite, TypeScript, Solana, Vercel

Kendibo (Home-services marketplace, Product Developer): Customers discover and book trusted home-service professionals, and providers get steady work. Hackathon-winning MVP, live at kendibo.ng with an early-access waitlist for customers and service partners. React, Node.js, Firebase

DigiMart (E-commerce vendor app, Mobile App Developer · Digi Exclusive): A cross-platform shopping and vendor app with secure payments, chat and push notifications. Grew to 5K+ users; the payment integration was associated with a 25% revenue increase. Flutter, Dart, Firebase, Stripe, Paystack

Super MCP Lite (Local-first multi-agent IDE, Creator): Orchestrates local (Ollama) and cloud AI agents on your codebase, with an Approve & Run gate on every risky command. One-command install with a global `super` CLI and desktop shortcut; MIT-licensed on GitHub. Python, Ollama, FFmpeg

NextGen Talent TV (E-voting, tickets & commerce platform, Full-Stack Developer): An e-voting, event ticketing and commerce platform for talent shows: organisers run contests and sell tickets, fans vote and watch live. Live at nextgentalenttv.com with organiser and fan accounts, events, voting and ticketing. React, Node.js

Zeroyale Ventures (Digital licensing & documentation, Full-Stack Developer): Renew car papers, apply for a driver's licence or register a business online, then track every request from a personal dashboard. A live service site with customer accounts, request tracking and agent onboarding. React, TypeScript, Vercel

SKILLS

Frontend	React, Next.js, TypeScript, Tailwind CSS, Vite
Backend & APIs	Node.js, Express, Python, FastAPI, Flask, REST
Mobile	Flutter, Dart, Push notifications, Offline-first
Payments & Web3	Paystack, Stripe, Solana, Phantom, Dynamic SDK, OAuth2
Data & Cloud	PostgreSQL, MySQL, Firebase, Vercel, Git
AI & Automation	LLM agents, Ollama, Genkit, Puppeteer, Prompt engineering

RECOGNITION

1st place: DevFest Eket Hackathon (2026)

1st place: Build with AI Hackathon (2026)

2nd place: Next Gen Summit Hackathon, Uyo (2026)
